Hi Sandy,

I understand that you are the staff person from the OAC staffing the Evaluation Subcommittee. I am a member of the OAC Service committee and at the March 30 meeting, Rebecca Brown from Resource Development Associates provided an overview of the feasibility study she was doing for the evaluation.

I recently have become involved with the MHSA partners and became aware of the RFP that was being developed. I reviewed this document and had a few comments/ suggestions. I will not be able to attend & provide public comment tomorrow so am providing this information this way.

Please contact me if you have any questions – thanks!
