

PEI PLAN APPROVAL SUMMARY

County: NAPA

Plan Projects:

This PEI Plan has 6 projects:

- 1) American Canyon PEI Project
- 2) Domestic Violence PEI Project
- 3) LGBTQ PEI Project
- 4) Native American PEI Project
- 5) Older Adult PEI Project
- 6) St. Helena and Calistoga PEI Project

Plan Strengths:

- Napa County Community Program Planning (CPP) process included written and online surveys, training workshops, Stakeholder Advisory Committee's and numerous cultural/ethnic specific workgroups. Two additional workgroups, one for LGBTQ and one for Native Americans were also added as a result of the community program planning process and the data that was collected.
- Additional outreach initiated a veteran's specific workgroup and in the end, eight specific focus groups were created. All focus groups were conducted in English and in Spanish. A Tagalog speaking translator was also available.
- Project 1, **American Canyon PEI Project**, addresses the needs of youth and their parents/caregivers living in the American Canyon. Friday Night Live Kids (FNL Kids) and The Student Assistance Programs (SAP) will reduce behavioral and disciplinary problems and improve attendance and academic performance.
- Project 2, **Domestic Violence PEI Project**, was developed by domestic violence advocates to prevent the onset of Post-Traumatic Stress Syndrome (PTSD) and improve mental health outcomes in children exposed to domestic violence.
- Project 3, **LGBTQ PEI Project**, reduces disparities in access to mental health services and increases the capacity of providers to serve LGBTQ in Napa County.
- Project 4, **Native American PEI Project**, provides outreach/education, cultural events and provider training to enhance prevention and early intervention resources for the Native American community. This project will be subcontracted to a local inter-tribal organization that will provide culturally-competent services, in natural settings, and will incorporate services for the families and/or support networks.

- Project 5, **Older Adults PEI Project**, targets older adults, and their families, that are at high-risk for depression and suicide, particularly those who are isolated and underserved.
- Project 6, **St. Helena and Calistoga PEI Project**, targets youth and families in this region to address youth at risk of school failure ages 5 to 18. The project has three components; a curriculum-driven, culturally-based group mentoring model to encourage positive youth development; a Promotor/a; and a parent collaborative component. All three components will reduce risk factors, improve resilience and enhance ethnic/cultural community partnerships.

BUDGET: \$ 670,466

Staff and the Plan Review Team Recommends: APPROVAL
