**County: Sacramento**

### **Plan Projects:**

This PEI Plan has 1 project:

- 1) Suicide Prevention

### **Plan Strengths:**

- Sacramento County conducted a comprehensive Community Program Planning (CCP) process that embraced a partnership with consumers and family members, who also comprise 50% of the MHSA Steering Committee and were involved in the video-taping of the Community Educational Forums that aired on public access television. A notable strength was the inclusion of youth consumers in the active planning for the Youth by Youth Community Educational Forum.
- 1700 completed surveys were translated into the 5 threshold languages, and at least one cultural perspective was showcased at each of the community forums.
- Sacramento County is proposing an Early Start Suicide Prevention Project that will complement the PEI Statewide Suicide Prevention Initiative.
- This Project includes the appointment of a County Liaison, establishment of a Suicide Prevention Taskforce, expansion of existing suicide prevention crisis line and lifelines by developing warm lines to include cultural/ethnic/multi-lingual capacity, and gatekeeper trainings.
