FOR IMMEDIATE RELEASE

March 26, 2009

California Mental Health Commission Authorizes Funding for Contra Costa, Los Angeles, Madera, Marin, Mariposa, Orange, Plumas, and Sonoma Counties to Prevent or Reduce the Impact of Mental Illness

Today, the California Mental Health Services Oversight and Accountability Commission (MHSOAC) authorized Mental Health Services Act (MHSA) funds for Prevention and Early Intervention (PEI) programs in Contra Costa, Los Angeles, Madera, Marin, Mariposa, Orange, Plumas, and Sonoma Counties. The MHSOAC authorized \$5,553,000 for Contra Costa County, \$5,739,200 for Los Angeles County, \$1,247,900 for Madera County, \$1,338,927 for Marin County, \$150,000 for Mariposa County, \$32,132,834 for Orange County, \$225,200 for Plumas County, and \$1,117,500 for Sonoma County.

MHSOAC Chair Andrew Poat said, "Prevention and Early Intervention programs will transform the mental health system. We will stop requiring consumers to "fail first" before receiving services and we will move to a "help first" system." Mr. Poat said, "Prevention and Early Intervention programs are a new approach to mental health in California. This program is a win for both mental health consumers and taxpayers."

In 2004, the Mental Health Services Act was approved by California voters as Proposition 63 to provide for increased mental health services in California. A Mervin Field Poll released last June shows 73% - or 7 in 10 - of California voters surveyed oppose cuts in mental health services to balance the state budget.

Mr. Poat said, "Our prevention programs will decrease expensive emergency room visits as we provide prevention services to consumers of mental health services." "Prevention and Early Intervention funds will keep kids in school, keep families together, and will avoid long term unemployment," said Mr. Poat.

The MHSOAC met on Thursday, March 26th, at the California Institute for Mental Health building in Downtown Sacramento.

This MHSOAC meeting is one of many Commission meetings that take place around the state. The intent of these meetings is to conduct business where the public can have access to the Commission and where the Commission can bring information regarding mental health oversight and accountability to the public.

This approval of PEI funds for Los Angeles County is for the first request from Los Angeles County and a much larger request is anticipated later in the year.
