**Issue:**

The Committee will continue conversation regarding the Consumer/Family-Run Organization Guidance Paper.

**Background:**

The CFLC 2012 Charter provides that the Committee will “Develop [a] guidance document for clarifying consumer-run, consumer-directed programs, peer support and peer specialization for purposes of MHSA programs and to identify models that are being developed.” On July 17, 2012, the CFLC held a meeting with a panel discussion on Consumer-Run Programs and Guidance Paper. The meeting had over 30 attendees in-person and on the telephone. Many perspectives were heard on this topic. The Committee will continue conversation at the August 15, 2012 meeting.
