\*Includes \$14 million in Vehicle License Fee Collections. FY 11/12 and FY 12/13 amounts from statute. FY 13/14 growth estimated based on 65% of FY 12/13 estimated growth going to Support Services Account and 5% Subaccount of such growth going to Realignment per statute.

\*\*Managed Care and EPSDT share of 2011 Behavioral Health Subaccount only. FY 13/14 growth estimated based on 65% of FY 12/13 growth going to Support Services Account and 12.97% going to Behavioral Health per statute.

**State General Fund (SGF):** The SGF is funded through personal income tax, sales and use tax, corporation tax, and other revenue and transfers. Prior to the Governor's FY 2011/12 Budget Proposal, the primary obligations of the SGF provided to counties for mental health are to fund specialty mental health benefits of entitlement programs including Medi-Cal Managed Care, Early and Periodic Screening Diagnosis Treatment (EPSDT) and Mental Health Services to Special Education Pupils (AB 3632).

**Realignment:** Realignment is the shift of funding and responsibility from the State to the counties to provide mental health services, social services and public health. There are two sources of revenue that fund realignment: 1/2 cent of State sales taxes and a portion of State vehicle license fees. The primary mental health obligation of realignment is to provide services to individuals who are a danger to self/others or unable to provide for immediate needs. It is also a primary funding source for community-based mental health services, State hospital services for civil commitments and Institutions for Mental Disease (IMDs) which provide long-term care services. 2011 Realignment gives counties the funding responsibility for EPSDT and Mental Health Managed Care.

**Federal Financial Participation (FFP):** FFP is the federal reimbursement counties receive for providing specialty mental health treatment to Medi-Cal and Healthy Families Program beneficiaries. The amount of federal reimbursement received by counties is based on a percentage established for California called the Federal Medical Assistance Percentage (FMAP).

**Proposition 63 Funds (MHSA):** The MHSA is funded by a 1% tax on personal income in excess of \$1 million. The primary obligations of the MHSA is for counties to expand recovery based mental health services, to provide prevention and early intervention services, innovative programs, to educate, train and retain mental health professionals, etc.

**Other:** Other revenue comes from a variety of sources--county funds are from local property taxes, patient fees and insurance, grants, etc. The primary obligation of the county funds is the maintenance of effort (the amount of services required to be provided by counties in order to receive realignment funds).

Unrequested State Administrative funds revert to the MHSF after one year.

Unexpended State Administrative funds revert to the MHSF after two years.

Administrative funds are based on Estimated Revenues not Estimated Available Receipts.

Effective FY 2011/12 the original 5% statutory maximum for state administration was revised to 3.5% (Assembly Bill 100)

The State Administration has up to 3.5% of the MHSF available. In order to have access to funds, within the 3.5%, the State Administration must request these funds through the State budget process. Upon approval, the requested amount is then budgeted in the requesting department's approved budget.
