

HOW PROPOSITION 63, THE MENTAL HEALTH SERVICES ACT, IS HELPING...

VETERANS

75% of Proposition 63 (MHSA) funding goes toward **Community Services and Supports** (CSS) programs. Veterans are one of the populations named by Prop 63.

For Example – CSS Programs targeting Veterans include:

- Veterans Common Housing, San Francisco County

- Veterans Day, Siskiyou County

20% of Prop 63 funding is used for **Prevention and Early Intervention** (PEI) services that are designed to prevent mental illness from becoming severe or disabling. PEI programs must serve people with or at risk for mental illness because of either individual or group factors, which includes Veterans.

- Vet to Vet Peer Program, Los Angeles County

5% of the total funding for each county CSS and PEI programs fund **Innovation** (INN) programs. These programs test new, unproven mental health models with the potential to become tomorrow's best practices.

For Example – INN programs targeting Veterans include:

- Community Resiliency Model (CRM), San Bernardino County
- Holistic Center, Fresno County
- Military Department Behavioral Health Liaison Program
- Mobile Support Team, Sonoma County
- OC4Vets, Orange County
