The MHSOAC Services Committee will review this paper and discuss how it can inform the committee's work going forward.

Background:

The "Mental Health Service Focus on Veterans" paper was developed in response to a request from the office of Darrell Steinberg, California Senate Pro Tem. The report documents county efforts for Veterans that utilize Mental Health Service Act (MHSA) funds. The programs included either serve Veterans exclusively or have Veterans as an identified subset of the target population(s). This report is not inclusive of all counties. It also does not include county programs that serve Veterans but do not utilize MHSA funds.
