Training on Conflict of Interest and Bagley-Keene Open Meeting Act

California Government Code section 11146.3 requires certain individuals including MHSOAC Commissioners to attend training on relevant ethics laws that govern the official conduct of state officials. This training is required as follows: (1) within six (6) months after he or she becomes a Commissioner; and (2) at least once every two years thereafter.

Since the Commission must follow the Bagley-Keene Open Meeting Act we are combining the ethics training with an overview of the Bagley-Keene Act to efficiently use the Commission's time.
