OTHER MATERIAL RELATED TO ITEMS:

ISSUE:

The MHSOAC has a contract with UCLA to develop, among other deliverables, standardized templates for reporting the priority indicators (Deliverable 2A) and to document the procedure for compiling the data to produce the standardized reports (Deliverable 2C). The development of a standardized template for statewide and county specific reporting of mental health priority indicators is an important step to understanding and measuring the impact of the Mental Health Services Act (MHSA).

Some of the proposed data sources that will be used in junction with Deliverables 2A and 2C have been recognized as having a lack of quality and uniform data. To tap into the expertise of the membership of the Evaluation Committee this agenda item will provide an opportunity to discuss and develop strategies on how to deal with inadequate quality of data for evaluation purposes.
