ISSUE: In the CFLC charter the committee is charged with reviewing and reporting to the MHSOAC on the implementation and progress of the Working Well Together program. The Working Well Together Training and Technical Assistance Center (WWT TAC), funded with MHSA dollars, is focused on the MHSA vision of transforming systems to be client and family-driven. Their primary focus is on supporting the sustained development of client, family member and parent/caregiver employment within every level of the public mental health workforce.

The Commission has asked for a panel presentation on this program at their July 28, 2011 Commission meeting. An update on the current status and accomplishments of this program will be provided at the CFLC meeting in preparation for the panel presentation to the MHSOAC on July 28, 2011.
