Issue:

Enclosed, for your review and discussion, you will find the updated Services Committee 2011 Charter.

Background:

On March 24, 2011, Governor Brown signed into law Assembly Bill 100 (AB 100), which became effective immediately. This bill made several changes to the Mental Health Services Act (MHSA) and, therefore, impacted many of the Services Committee charter and work plan activities. The Charter was revised April 2011 to reflect the changes.

This is the last Committee meeting in 2011 and as such the Committee will discuss what activities from the Charter were not completed and may need to be included in the 2012 Committee Charter. The Committee will meet in January 2012 to comment on the proposed 2012 Services Committee Charter.
