**Issue:**

Dr. Deborah Lee, MHSOAC Consulting Psychologist, will present a status update on the Innovation Trends Report for your input and discussion.

**Background:**

The draft MHSOAC Innovation Trends Report analyzes 86 Innovation programs from 31 counties with MHSA Innovation work plans that were approved by the MHSOAC before Assembly Bill (AB) 100 ended state review and approval of Innovation programs and funds. The report also will assess trends from 19 counties with 36 Innovation work plans that were approved locally after the passage of AB 100. A total of 45 counties now have approved Innovation programs (including 5 counties with Innovation programs developed both pre- and post-AB 100).
