**AGENDA ITEMS: CMHDA Presentation on County-Specific Outcomes Data**

**ENCLOSURES:** • PowerPoint Presentation

**OTHER MATERIAL RELATED TO ITEMS:** None

---

**Presenters:**

*Pat Ryan, Executive Director, CMHDA*

*Anthony Delgado, Program Manager II, Orange County Health  
Care Agency*

**Presentation:**

The purpose of the California Mental Health Directors Association (CMHDA) presentation is to provide to the Commission a success story of how counties and providers can work together to improve service delivery through data and outcome measures. This presentation will highlight Orange County Mental Health Services Act program successes including the reduction of incarceration, homelessness, and hospitalized days and other overall lessons learned and program achievements

Anthony Delgado, Program Manager II, Orange County Health Care Agency will be presenting on how the Full Service Partnerships (FSPs) in Orange County use data and outcome measures to improve service delivery. Orange County has taken a unique approach to data analysis by establishing a dedicated County department, as well as contracted data analyst positions in each FSP. The success of the FSPs in Orange County is due in large part to the county's accessibility to the data and its willingness to learn from it.
