---

**AGENDA ITEM:** Report Out on Materials from California Institute of Behavioral Health (CiBH) Fiscal Leadership Institute Related to Affordable Care Act

**ENCLOSURES:** • None

**OTHER MATERIAL RELATED TO ITEM:** None

---

Lindsay Walter, Fiscal Manager County of Santa Barbara, will share documents and information gathered at the California Institute of Behavioral Health (CiBH), formerly the California Institute of Mental Health (CiMH), Fiscal Leadership Institute.

Lindsay will share the information and materials she received relating to:

- 1) A new paper from the National Council for Behavioral Health regarding "The Future of Health - Behavioral Health Centers of Excellence" (May 9, 2014);
- 2) New legislation passed by Congress on March 3, 2014 for an 8 state pilot for Certified Community Behavioral Health clinics (key California leader Representative Matsui supported and helped getting it passed);
- 3) Affordable Care Act Section 2703 - Healthcare Homes (integrated care projects for public health/behavioral health).

These initiatives will support the transformation of the US and California's Behavioral Health Systems. These initiatives will dramatically impact how services are performed in California communities.
