

# Recommendation from the Client and Family Leadership Committee regarding Stakeholder Orientation

May 28, 2015

# Background

- The Stakeholder Orientation that is typically presented prior to each Commission meeting was evaluated by the CFLC at their April 30, 2015 meeting.
- The CFLC considered these three questions:
  1. Should the Stakeholder Orientation that is currently available before each Commission meeting continue during the same time-slot?
  2. Has there been consistent interest to provide the Stakeholder Orientation during the lunch break?
  3. When the MHSOAC meets outside of Sacramento, when should the Stakeholder Orientation be available?
- The responses provided by the CFLC membership guided the development of the recommendations.

# CFLC Recommendations

- For Commission meetings held in Sacramento, the Stakeholder Orientation should be made available upon request and be held at an appropriate time.
- For Commission meetings held outside of Sacramento, the Stakeholder Orientation should be made available at an appropriate time.
- The Stakeholder Orientation should be posted on the MHSOAC website.
- The above recommendations should be piloted for a period of time, with the suggestion of 9 months, to determine if there is sufficient need to continue to offer the Stakeholder Orientation.

# Proposed Motion

The Executive Director is to make the Stakeholder Orientation available consistent with the Client and Family Leadership Committee recommendations.
